. THE report of an immense foreign wheat crop led to a depression of the Chicago market.

SIXTEEN new cases of small-pox were reported to the Board of Health at Cincinnati, Monday.

THE firm of J. T. Warren & Co., wholesale dealers in foreign fruits, fancy groceries and tobacco, at Cincinnati, made an assignment on Monday.

The Western Tobacco Journal says: The prevalence of the symptoms characteristic of the tobacco trade at this season, does not afford conclusive evidence of a dull market for the coming year. On the contrary, according to past experience, reaction will ensue with the resumption of business in other relations, and it may te safely predicated that despite high prices the tobacco trade for the coming year offer ample scope for business tact.

REFERING to the tariff discussion in the Senate, the American Register says: It is, in one sense, highly suggestive. The man- \$77,815. i est purpose of the protectionists is to stave off and resist any amendment to the tariff laws until they have had an opportunity of using the protection argument in another Presidential election. The advocacy, ly certain protection Senators, of a commission of experts to revise our tariff system, means only that all revision of the tariff is to be resisted under the pretence ci correcting the palpable wrongs and degroaning. This system of revising the tariff is a sham and a delusion, and is introduced solely to throw dust in the eyes of the people. It is a plan of revision not intended to revise, but to continue and perpetuate our present monstrous and most unequal tariff, and we trust that the Democrats in Congress will resist it to the hitter end. Their opposition may not secure everything that is desired, but they can at least leave the subject open for disenssion, and our tariff laws open for amendment.

The object of the protectionists is obvicus. If permitted to pass their bill for the appointment of a commission of experts by the President, the whole subject will be consigned to the tomb of the Capulets, and all future attempts to amend or revise the tariff laws will be resisted on the ground banking circles. that the whole subject has been confided to that commission, and unt'l that august hody makes a report, it will be improper for congress to take any action whatever in the premises. The way how not to do tagious diseases in cattle. His bill is a thing is frequently made very plain, but we have rarely seen a device for that pur-I ose made so palpably apparent.

The democrats in congress are charged with many high duties and grave responsibilities, but we know of none calling for the exercise of greater wisdom, patience, courage and fidelity than the matter now under consideration. If they will stand firm, however, they have it in their power to prevent great wrongs, though they may be powerless to accomplish many valuable purposes.

We confidently rely upon our political friends to do everything in their power to advance the common prosperity of the whole country, and thus promote the good of the greatest number of their countrymen.

SHE IS SAFE.

The Lost Ship Jeanette Found.

London, December 20.—The Governor of Siberia has just issued a proclamation announcing that the Arctic voyage ship, the Jeannette is safe, with all on board well,

The Governor who has taken for a long time special interest in Arctic explorations, caused an extraordinary searching party to be sent out to hunt for tracks of the Jeannette.

After ascertaining that the Jeannette was absolutely safe, that all on board were well and fully provided for, the Siberians hastened back to report the good news, for which the Governor had impressed upon them the whole scientific world was anxiously awaiting.

The Governor of Siberia at once dispatched special couriers with the news, to have it get to London with all possible speed, and it reached London a few minutes ago.
